

CarryGo Production Readiness Checklist

1. Core Platform Functionality

User Management

- User registration (email, phone, OAuth)
- Secure login and logout
- Password reset and recovery
- Profile creation and editing

Roles and Permissions

- Sender role
- Traveler role
- Admin role
- Role based access control (RBAC)

Package Delivery Workflow

- Create delivery request
- Browse available delivery requests
- Accept or match delivery requests
- Status tracking (pending, accepted, in transit, delivered)
- Delivery confirmation system

Communication System

- In app messaging
- Notification system (email, push)

Payment System

- Secure payment processing
- Escrow mechanism
- Refund handling
- Transaction history

2. Security Readiness

Core Security

- HTTPS enabled (SSL)
- Password hashing
- JWT or session authentication
- Input validation and sanitization
- Protection against SQL injection and XSS
- Rate limiting
- Secure environment variables

Data Protection

- Encryption of sensitive data
- GDPR compliance
- Privacy policy

3. Trust and Safety Features

- User verification (KYC)
- Ratings and reviews
- Reporting and dispute system
- Prohibited items policy
- Traveler identity verification

4. Infrastructure and Deployment

Environments

- Development
- Staging
- Production

Hosting

- Cloud hosting configured
- Domain configured

- CI/CD pipeline setup
- Automated deployment

Containerization

- Docker configuration
- Container registry

5. Database Readiness

- Schema finalized
- Migrations tested
- Indexing applied
- Backup strategy
- Rollback strategy

6. Performance Optimization

- API optimization
- Caching implemented
- Pagination
- Asset optimization
- Load testing

7. Monitoring and Logging

- Logging system
- Error tracking
- Performance monitoring
- Alerts configured

8. Testing Coverage

- Unit tests
- Integration tests
- End to end tests
- Regression testing
- Smoke testing

9. Deployment Strategy

- Blue green or rolling deployment
- Feature flags
- Rollback plan

10. Legal and Compliance

- Terms and conditions
- Privacy policy
- GDPR compliance
- Liability and insurance policy
- International shipping regulations

11. User Experience Readiness

- Mobile responsiveness
- Onboarding flow
- Error handling
- Loading states
- Accessibility

12. Support and Operations

- Customer support system
- Admin dashboard
- Incident response plan
- FAQ/help center

Final Pre Launch Checklist

- All tests passing
- No critical bugs
- Payment tested in live mode
- Notifications working
- Monitoring active
- Backup verified
- Security audit completed

- Smoke tests passed
